

AIBI

Australian Institute of
Business Intelligence

The Australian Institute of Business Intelligence offers **industry-relevant** higher education programs. We practice a **student-centred approach** with smaller class sizes taught by experienced academics.

Outside the classroom students have opportunities to apply their business knowledge in **client based projects**, participate in **industry networking** and **internships**.

Our vision is to prepare students for the opportunities of the future by focusing on tomorrow's workforce and business needs.

Apply for admission to AIBI today at: aibihe.edu.au/apply

Bachelor of International Business

The **Bachelor of International Business** is a multidisciplinary program for students who wish to establish a career in international business.

Students will learn about the special challenges associated with conducting business across national borders, diverse and different cultures, different legal and regulatory environments.

AIBI HE offers a blended learning approach through offering small class sizes with active participation. Students will be able to apply their knowledge to real life cases and projects taught by experienced academics and industry professionals.

Graduates will have the necessary skills and knowledge to work in a wide range of industries, including private and government sectors or possibly creating their own international business.

Bachelor of Enterprise Management Systems

The **Bachelor of Enterprise Management Systems** is a degree that encompasses the skills and knowledge to succeed in the current market. The program focuses on the challenges associated with selecting, installing and supporting systems which support business processes, data analytics and information flows within an organisation and with key external parties such as suppliers and customers, across a wide range of sectors and industries.

Students will be taught the fundamentals of businesses and learn how to employ strategic decisions necessary for management. Graduates will be equipped with the necessary skills to lead a team in a diverse range of careers.

AIBI HE is currently the only provider with a business bachelor's degree specialising in Enterprise Management Systems.
