

THE FUTURE OF WORK IS INTELLIGENCE – ARTIFICIAL AND HUMAN – IN A BORDERLESS GLOBAL MARKETPLACE.

OUR VISION IS TO PREPARE STUDENTS FOR THE OPPORTUNITIES OF THE FUTURE BY FOCUSING ON TOMORROW'S BUSINESS INTELLIGENCE NEEDS.

Our Courses

Bachelor of International Business

This program provides students with foundational knowledge and skills drawn from those disciplines which are essential in the management of a modern business – accounting, statistics and data management, business information systems and communications. It then focuses on the special challenges associated with conducting business across national borders, diverse and different cultures, different legal and regulatory environments, and different time zones, in the modern business environment.

Bachelor of Enterprise Management Systems

This program focuses on the special challenges associated with selecting, installing and supporting systems which support business processes, data analytics and information flows within an organisation and with key external parties such as suppliers and customers, across a wide range of sectors and industries. As graduates will mainly be employed in businesses and similar organisations, this program provides students with foundational knowledge and skills drawn from those disciplines which are essential in the management of a modern business.
